

## Sample Terminal Server Scripts

The following sample scripts will allow Maplewood to be run as a desktop replacement in Terminal Services this version of the script is to be used on a server that only has one copy of Maplewood installed on it.

Script 1:

Name: ShellMW.cmd

Contents:

```
START "Do Not Close -- Maplewood Launch Script" /min C:\Scripts\OpenMW.cmd
```

Script 2:

Name: OpenMW.cmd

Contents:

```
@ECHO OFF

CLS

ECHO Launching MapleWood ...

Goto OPEN_MAPLEWOOD

Goto Done

:OPEN_MAPLEWOOD
START /w \\SERVER_NAME\MW_SHARE\WPr\mwAdm32.exe -EnvLink
\\SERVER_NAME\MW_SHARE\Pr
Goto MW

:MW

ECHO .
ECHO Maplewood terminated ...
ECHO Terminating processes...
taskkill /f /im ntvdm.exe

:Done
EXIT
```
